Mental Health Roundtable Discussion

A cross-sector opportunity for mental health providers, school counselors and school nurses to share experiences, organizational practices, and ideas for improving efficiencies as they work together to help students and their families manage mental health issues.

Make plans now to attend...

- Gain an understanding of the supporting roles that mental health providers and school personnel play in addressing the mental health issues of their students and families;
- Receive tools to enhance your efforts to provide services;
- Build relationships and networking opportunities with those who share the common goal of connecting those in need of services with the resources available to them.

Save the Date

Wednesday, May 14, 2014
