This training supports the implementation of the evidence-based **Signs of Suicide Prevention Program**. This training is provided free of charge thanks to the support of **Connor's Climb**.

This is a half-day training prepares individuals to provide suicide prevention education and mental health screening for their students using the SOS program and engage trusted adults in their efforts. The training walks participants through the program materials and planning process to ensure schools are ready to implement an evidence-based suicide prevention program with fidelity.

TOPICS INCLUDE:

- Facilitating a classroom discussion about depression and suicide with 6th-12th graders
- Administering universal depression screening and following up with identified students
- Providing basic youth suicide prevention training for teachers and school staff
- Coordinating with school administration and community partners for support
- Reaching out to parents as partners in prevention
